Trained tutors teach the parents of 4 and 5-year old Head Start preschool children how to read books to their children in Collier County Public Schools. Then the children join the class for literacy activities with their parent. The purposes of this program are to instill a love of reading when shared between parent and child; empower parents to be involved in their children's education; and to improve the English skills of the children and their parents. Three eight-week sessions are held during the school year. Volunteers may choose one, two, or all three sessions. The classes are held in the afternoon.
